

Agenda Item 4: Recommendations of the Technical College Sector for Issues related to Performance Indicator 7D

The following recommendations were presented to staff on behalf of the Technical College Sector:

Subject: Licensure Recommendations to CHE

To: CHE P&A Staff
Cc: Technical College CAPA Representatives, Institutional Effectiveness Coordinators

Lovely, Mike and Julie:

As you have requested, below is the licensure recommendation the Technical College Sector will bring to the February CAPA meeting:

For the Technical College Sector it is recommended that 1) only licensure required for employment in SC be included, 2) licensure scoring be based on comparison to national data, and 3) the draft 'guidelines' for licensure reporting be reviewed and revised as necessary. Also recognized is the possible need to revise some of the timeframes which capture licensure pass rates to more accurately capture data consistent with the way testing agencies compile information required for national comparison, and that such a change might require collecting data for slightly different dates for different tests.
